EDUCATION

Medicaps University, Indore

2023 – 2027

B.Tech in Computer Science and Engineering

CGPA: 8.19 / 10.0

SUMMARY

3rd-year B.Tech Computer Science student with hands-on experience in MERN stack (MongoDB, Express.js, React.js, Node.js), specializing in backend and REST API development. Built and deployed 3 full-stack applications on AWS with Google Gemini API integration. President, AWS Cloud Club at Medicaps University, leading 80+ members.

SKILLS

Languages: JavaScript, C++, Python

Backend: Node.js, Express.js, REST API Design, JWT Authentication

Frontend: HTML5, CSS3, React.js

Database: MongoDB, Mongoose

Cloud & DevOps: AWS EC2, AWS S3, Nginx, Git, GitHub, Vercel

Concepts: Data Structures & Algorithms, OOP, DBMS, System Design

PROJECTS

[PrepPilot – AI Interview Preparation Platform](#)

live at : preppilot.in

Tech stack : Node.js, Express.js, EJS, MongoDB, Google Gemini (LLM)

- Built an all-in-one AI platform with 5+ features including roadmap generator, resume analyzer, resume builder, AI interviewer, and DSA tracker
- Integrated Google Gemini LLM for dynamic content generation, mock interviews, and personalized feedback
- Designed modular backend architecture to handle multiple AI-driven features within a single system
- Developed structured user workflows for end-to-end interview preparation

[AI Chatbot Generator](#)

Tech Stack: Node.js, Express.js, React.js , MongoDB, Google Gemini (LLM)

- Built a platform to generate domain-specific AI chatbots using Google Gemini
- Enabled seamless integration of generated chatbots into external websites via a single iframe
- Designed backend for prompt handling, chatbot configuration, and response generation
- Simplified deployment by allowing plug-and-play chatbot embedding without complex setup

[Real-Time Pizza Delivery Application](#)

Tech Stack: EJS, JavaScript, Express.js, MongoDB, Socket.io

- Implemented real-time order tracking using **Socket.io** for live status updates.
- Built a dynamic order management system for customers and restaurants, enabling seamless order placement and tracking.
- Developed a secure authentication system to manage user roles (Customers, Admins, and Delivery Partners)

LEADERSHIP & ACTIVITIES

President – AWS Cloud Club, Medicaps University

Aug 2025 – Present

- Built and scaled the club from inception; leading operations and strategy
- Organized workshops, hackathons, and expert sessions for student community
- Mentored students in development, cloud, and problem-solving
- Led team coordination, event execution, and community growth initiatives

ACHIEVEMENTS

- Solved **350+ DSA problems** across platforms including Coding Ninjas (100+) and CodeChef (250+), strengthening problem-solving in C++ and core data structures
- Achieved **Master League ranking** on Coding Ninjas in C++ (Data Structures & Algorithms).
- Completed **Guided Path in C++ (DSA)** on Coding Ninjas with certification.
